

Burlington Coat Factory recieved notice on 1/6/2004 that Touch America would be terminating our service in 24 locations on 1/31/2004. We have Contracted with Qwest Communications to transfer services for these locations, however do not feel that this notice will give us ample time to transition without causing hardship to our operations. we would like to know if it would be possible for Touch America to not terminate us until a time in which all of our locations can be transitioned to Qwest.
